Chargeback Fraud Abuse and Serial Disputer Blacklist

Document ID: DOC-REF-026 | Version: 1.0 | Status: ACTIVE
Department: Merchant Operations | Effective Date: 2025-05-15

Section 1: Policy Scope and Purpose

This official operational documentation establishes the mandatory standards, procedural steps, and operational guidelines governing chargeback fraud abuse and serial disputer blacklist across all ApexPay corporate operations and regional business units. Compliance with this directive is monitored by the Merchant Operations audit committee.

Section 2: Core Procedures and Requirements

Operational personnel must execute daily workflows in adherence with standard protocol. Key performance indicators are audited weekly. All exceptions to standard handling must be logged with ticket references, verified by an authorized manager, and reviewed during monthly operational governance audits.

Section 3: Record Keeping and Audit Compliance

All operational records, logs, and approval trails related to this policy must be retained in the central compliance repository for a minimum period of 3 years. Unauthorized modifications or deviations will trigger automated compliance escalation to department leadership.
